Hoovle School System

School, Course Management & Communication System

Why would a teacher want to use Hoovle?

Teacher's today have a lot to contend with, getting and maintaining a students **attention**

Between their social and personal lives, school unfortunately sometimes isn't a major **priority** for students

Using **Hoovle** allows teachers to create that link between the students personal and educational life. Through the features below, a teacher can fully **integrate** those two aspects

And again, most importantly, it's secure

Hoovle School System

School, Course Management & Communication System

Why is security important?

Security is our, and should be your, **number one priority** when considering to use a School & Course Management System

Why? These days, there are so many websites, asking for **so much information** and you have more login and passwords than you can remember. You shouldn't have to worry about whether **your information** is **actually** safe

That is why at Hoovle, we've spent over **6 months** on **implementing security measures** throughout the site
